

Maths

Some groups may complete all of the Key Objectives in their year group. Priority will be given to identifying and teaching to gaps in learning and consolidating number and place value skills. Arithmetic and X tables are taught throughout the maths curriculum and revisited regularly.

	Year 3	Year 4	Year 5	Year 6
AUTUMN	Place Value Addition and Subtraction Multiplication and Division <i>Consolidation</i> <i>Arithmetic skills</i> <i>X tables</i>	Place Value Addition and Subtraction Area Multiplication and Division	Place Value Addition and Subtraction Multiplication and Division Fractions	Place Value Addition, subtraction, multiplication and division Fractions Converting Units
SPRING	Multiplication and Division Length and Perimeter Fractions Mass and Capacity <i>Consolidation</i> <i>Arithmetic skills</i> <i>X tables</i>	Multiplication and Division Length and Perimeter Fractions Decimals	Multiplication and Division Fractions Decimals and Percentages Perimeter and Area Statistics	Ratio Algebra Decimals Fractions, decimals and percentages Area, perimeter and volume Statistics
SUMMER	Fractions Money Time Shape Statistics <i>Consolidation</i> <i>Arithmetic skills</i> <i>X tables</i>	Decimals Money Time Shape Statistics Position and Direction YEAR 4 MULTIPLICATION TABLES CHECK	Shape Position and Direction Decimals Negative Numbers Converting Units Volume	Shape Position and Direction Consolidation of skills, project and problem solving KS2 SATS (Arithmetic and Reasoning)
